Lunch Tray System

Health & Convenience - Product Review

"Stack & Go"

- Simple to use,
- Simple to clean,
- Simple to Store,

Why use anything else?

Health & Convenience -

Product Review

Dairy, meats, vegetables and fruits all can be accommodated easily within the four different sized compartments. The "Fresh Seal" protects foods from each other.

Health, nutrition and a variety of foods, is always in style.

Properly proportioned compartments allows for a full range of food group diversification

Healthy eating has never been so easy

Health & Convenience -

Product Review

At school, or at play.....

Style, size and ease of use identified tremendous success for all age groups and uses.

The stylish profile and colour combinations allow the product to be used in everyday, real life environments.

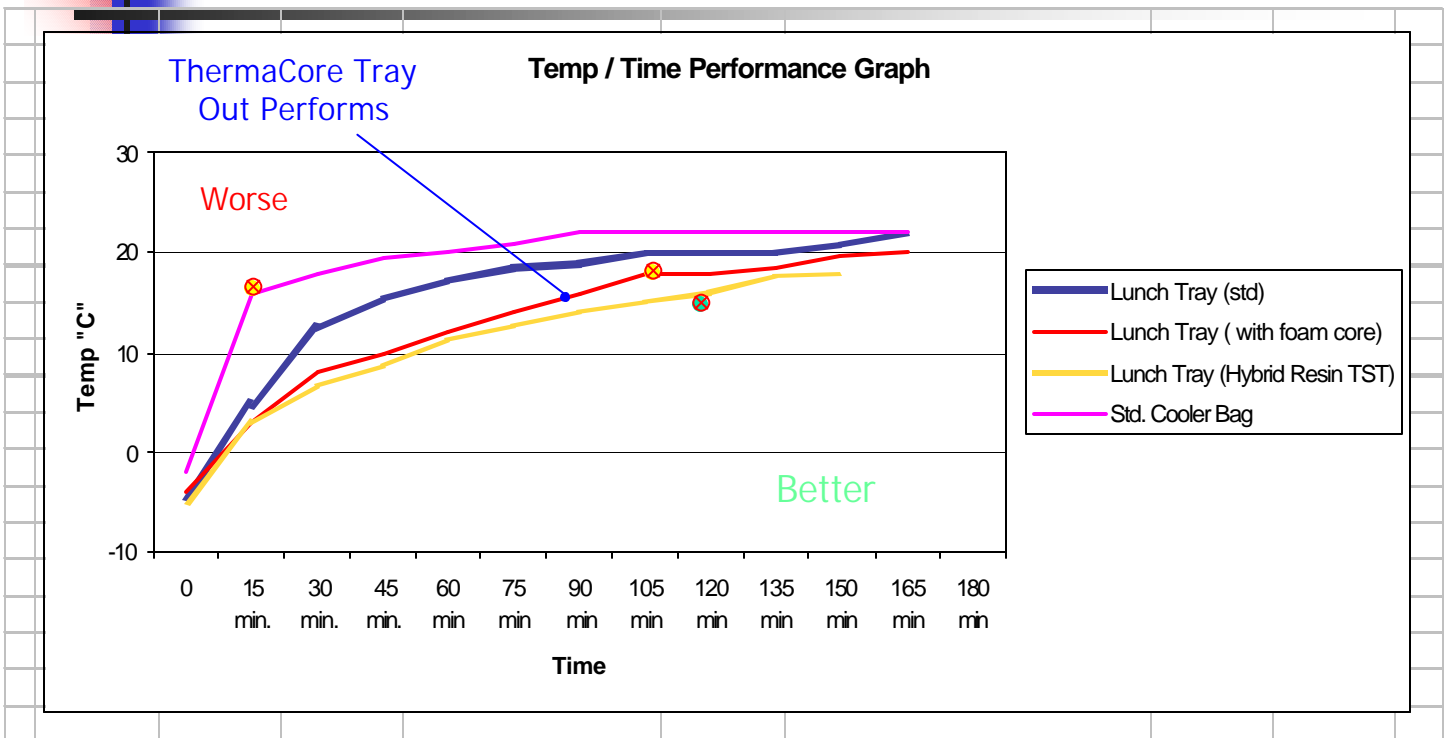

In the office at work.....

The perfectly proportioned "lunch tray" can be trusted not to leak while keeping your food fresher , longer

Eating with Style !
